**Space Nights at Camp Cullom**  
c/o Wabash Valley Astronomical Society  
P.O. Box 2020  
West Lafayette, IN 47996-2020

**NOTICES:**

1. There is no fee for this event, but donations to Camp Cullom and Prairie Grass Observatory are greatly appreciated, especially since the Indiana Family Star Party can't be held this year.
2. Pre-registration is required to attend. At-gate registration cannot be performed.
3. Only the first 100 individuals to pre-register may attend.
4. Attendees may camp and set up telescopes on the observing field, with appropriate social distancing. Restrooms, showers, and the playground will be sanitized multiple times per day.
5. There are no scheduled activities and no speakers. No food service will be available on-site but a list of some of the local eateries and grocery stores will be provided. No wood or charcoal cooking is permitted on the observing field, but propane or alcohol stoves are acceptable. Power for electric cookers is available at the Rotary shelter (normally the Astro Grill location).
6. Appropriate social distancing **must** be maintained when around non-family members. Masks are strongly recommended.
7. Be aware that sharing a telescope or eyepiece may transmit the COVID-19 virus unless the equipment is sanitized between observers.
8. All of these plans are tentative and subject to change depending on the pandemic's progress. We'll notify you by e-mail if there are any significant changes, and current information will be on the [www.indianastars.com/starparty/](http://www.indianastars.com/starparty/) website.
